Washington, Dec. 29.—Republican and Democratic senators working for a peace treaty compromise centered their attention today on a plan said to have been accepted by the mild reservation Republicans and a number of Democrats for modifications of three reservations approved by the senate at the last session.

These three charges, it is believed would make the treaty acceptable. Two-thirds deal with the preamble declaration that the qualifications must be acquiessed in by the other powers. The mild group bottom Lodge and Hitchcock will be entirely with them. It was said, however, that neither of the party leaders had

expressed an opinion. Although compromise talks on this and other qualification plans continues among the senators remaining here, there are so many absent that no concrete action may be expected until the senate reassembles next Monday.

AT HUB THEATRE

Some idea of the attention paid to details by Cecil B. De Mille in his production of the Paramount-Arteraft picture, "Male and Female," which will be the attraction at the Hub theatre on Thursday and Friday may be gained from a photographic feat which he accomplished during the filming. Those who are familiar with Sir James M Barrie's famous play, 'The Admirable Crichton.' from which the new De Mille production was adapted, will recall that several of the most exciting scenes take place in a cave on a tropical island. In order to secure natural sunlight for "shooting" these episodes, Mr. De Mille devised an intricate system of mammoth mirrors, by which the rays of the sun were reflected far into the dark recesses of the cave. Despite the lavish scale upon which the picture was screened, the inimitable Barrie humor and his whimsical touches are apparent throughout. Thomas Meighan has the leading role, and oth_ er prominent players in the cast are Gloria Swanson, Lila Lee, Theodore
